Project file SOM-26/HSF/SA1/WASH/NNGO/0213

Emergency water, sanitation and hygiene for flood-affected riverine villages, Lower Jubba

Allocation	2026 First Standard Allocation (SA1)
Partner	Juba Riverine Relief Organisation (JRRO), national NGO
Cluster	WASH
Requested amount	US$ 612,480
Duration	12 months
Sub-implementing partner	Buulo-Qansax Community Water Committee (local CBO)
HFU focal point	Esther Ranasith, Humanitarian Affairs Officer (Grants)

INTERNAL MEMORANDUM

To	Head of HFU
From	Esther Ranasith, Humanitarian Affairs Officer
Date	20 March 2026
Subject	Project SOM-26/HSF/SA1/WASH/NNGO/0213 for technical review

This file brings together the documents for the JRRO WASH project recommended under the first standard allocation of 2026. It is prepared for the technical review stage and for the HC decision to follow.

The partner capacity assessment for JRRO was pending at the time the allocation was launched; its status is recorded in section 3.

Name	Title / role	Signature	Date
Esther Ranasith	Humanitarian Affairs Officer (Grants)	_____	20 March 2026
Nadia Mbuyamba	Finance Associate	_____	20 March 2026
Tariq Torvaldi	Head of HFU	_____

1. Allocation framework

This project is funded through a standard allocation, launched on 10 February 2026 with an envelope of US$ 18 million.

The allocation strategy paper, approved by the Humanitarian Coordinator on 3 February 2026 after consultation with the Advisory Board, is at Annex A.

Access constraints are monitored by the access working group. Projects in hard-to-reach areas describe contingency arrangements, including remote management and the use of local implementing staff.

Monitoring of funded projects follows the operational modalities approved by the Humanitarian Coordinator. Field monitoring, financial spot checks and remote call monitoring are planned according to partner risk level.

The allocation timeline is published at launch. Partners are informed of each stage through the grant management system, and the Humanitarian Financing Unit holds an information session for applicants during the first week.

The Country-Based Pooled Fund is managed by the Humanitarian Financing Unit on behalf of the Humanitarian Coordinator. Allocations support the priorities of the humanitarian response plan and are coordinated with the clusters. The Advisory Board provides strategic guidance on fund use.

2. Partner eligibility

JRRO passed the due diligence stage on 14 May 2025 and is registered as an eligible partner of the fund.

Following due diligence, eligible partners undergo a capacity assessment which determines their risk level, the operational modalities that apply to them and the maximum amount they may receive.

The signed Annex 7 declarations of JRRO cover accurate information, compliance with the guidelines, conflict of interest, designated entities, legal process, disability inclusion and PSEA.

3. Capacity assessment

At the launch of the allocation, the capacity assessment of JRRO was recorded as pending in the partner register.

The capacity assessment was completed on 2 March 2026 and places JRRO at a medium risk level, with a funding ceiling of US$ 800,000 per project.

4. Strategic review and scoring

Project (synthetic code)	Partner	Strategic (40)	Technical (40)	Cost (20)	Total	Rank
SA1/WASH/0213	JRRO	-	-	-	78	1
SA1/WASH/0198	Gedo Water Alliance	-	-	-	54	7
SA1/WASH/0224	Afmadow Relief Network	-	-	-	71	2
SA1/WASH/0187	Coastal Aid Somalia	-	-	-	69	3
SA1/WASH/0231	Jubba Valley Health and WASH	-	-	-	62	6
SA1/WASH/0205	Kismaayo Youth Services	-	-	-	65	4
SA1/WASH/0240	Riverine Women Action	-	-	-	65	5

The WASH cluster review committee completed the standard scorecard for each proposal, and project 0213 scored 78 out of 100.

The strategic review committee met on 12 March 2026 and recommended project 0213 for funding at the requested amount.

The recommendation of the committee follows the scorecard ranking, and no project was recommended out of rank order.

The selection decision of the review committee was not recorded in OneGMS before the project was recommended for funding.

Status of the project in OneGMS on 20 March 2026: under technical review.

Any amendment to the agreement shall be made in writing and signed by the authorised representatives of both parties. Budget reallocations within a category of up to ten percent may be agreed by exchange of letters; larger changes require a formal amendment.

Programme monitoring combines routine data review, field visits and spot checks. Monitoring visits are planned on a quarterly calendar and reports are filed within two weeks of each visit. Follow-up actions are assigned an owner and a due date.

Transport and storage arrangements take account of the rainy season. Pre-positioning of goods in district stores is completed before the end of the dry season where possible. Temperature logs are kept for items that require controlled storage.

5. Project design and budget

The project will rehabilitate 18 shallow wells, install 6 solar-powered water points, construct 240 emergency latrines, and distribute hygiene kits to 3,600 households in riverine villages affected by the 2025 Deyr floods. Water quality testing and chlorination will be carried out monthly.

JRRO will implement part of the water-point component through a local community-based organisation. Where implementation is through a sub-implementing partner, the fund requires the partner to describe how funds are passed through, how the sub-partner is monitored and how its expenditure is verified.

Code	Budget line	Unit	Qty	Unit cost	Total (US$)
1.01	Shallow well rehabilitation	well	18	5,183	93,294
1.02	Solar water points	unit	6	19,256	115,536
1.03	Emergency latrines	latrine	240	338	81,120
1.04	Hygiene kits	kit	3600	30	108,000
1.05	Water quality testing	month	12	651	7,812
1.06	Hygiene promoters	person-month	122	259	31,598
2.01	Project staff	month	12	4,998	59,976
2.02	Monitoring and transport	month	12	1,052	12,624
	Subtotal, lines shown				509,960

Summary of the main cost lines only. Support costs, contingency and lines below the reporting threshold are carried in the detailed costing and are not shown here.

The budget above is in the partner's own format; the budget on the standard fund template has not yet been submitted and will be requested during technical review.

6. Accountability and misconduct provisions

Under Annex 9 of the guidelines, JRRO must inform the HFU within 48 hours of becoming aware of any allegation or suspicion of fraud, corruption or diversion affecting the project.

No Secretariat-wide partner-sanctions regime applies to the fund, and the file records it as none.

The project file does not name the channel for reporting to OIOS.

7. Designated-entity screening

Subject	Juba Riverine Relief Organisation (JRRO) and its board
Declaration type	designated-entity (Annex 7 declaration, section 4)
Outcome	Clear
Screening reference	HFU-DD-_____ dated __/__/2026

8. Grant agreement status

The grant agreement has not been issued; it will be generated in OneGMS once the technical review is cleared.

Annex A — Allocation strategy paper (extract)

The first standard allocation prioritises life-saving WASH, health and nutrition responses in districts classified in IPC Phase 4 and in areas affected by the 2025 Deyr floods. At least 30 percent of the envelope is reserved for national and local partners.

Audits of funded projects are carried out according to the audit plan of the fund. Audit reports are shared with partners, and follow-up of recommendations is tracked by the Humanitarian Financing Unit.

Localisation is a guiding principle of the fund. National and local partners are encouraged to apply directly, and international partners are expected to show how they strengthen the capacities of local organisations they work with.

Protection mainstreaming is applied across sectors. Projects assess the risk that assistance may cause harm and describe measures to reduce it, including safe distribution arrangements and referral pathways.

Access constraints are monitored by the access working group. Projects in hard-to-reach areas describe contingency arrangements, including remote management and the use of local implementing staff.

Annex B — Project locations

Village (synthetic)	District	Households	Planned intervention
Buulo Weyn	Jamaame	358	Latrines
Warshiikh Hoose	Jamaame	163	Solar water point
Dhobley Yare	Jamaame	109	Latrines
Jilib- Yare	Jamaame	334	Well rehabilitation
Dhobley Yare	Kismaayo	122	Latrines
Warshiikh Yare	Kismaayo	355	Well rehabilitation
Warshiikh Yare	Afmadow	363	Latrines
Tabta Yare	Kismaayo	286	Hygiene kits
Buulo Yare	Afmadow	167	Well rehabilitation
Warshiikh Hoose	Kismaayo	401	Hygiene kits
Tabta Weyn	Jamaame	199	Solar water point
Buulo Weyn	Afmadow	269	Hygiene kits
Dhobley Dheere	Kismaayo	222	Hygiene kits
Jilib- Yare	Jamaame	276	Latrines
Warshiikh Weyn	Afmadow	210	Solar water point
Warshiikh Yare	Kismaayo	97	Latrines
Warshiikh Yare	Afmadow	295	Hygiene kits
Tabta Yare	Afmadow	90	Hygiene kits
Jilib- Weyn	Kismaayo	300	Hygiene kits
Warshiikh Yare	Afmadow	122	Latrines
Buulo Hoose	Kismaayo	169	Hygiene kits
Warshiikh Hoose	Kismaayo	142	Hygiene kits
Warshiikh Hoose	Afmadow	374	Well rehabilitation
Qansax Cusub	Jamaame	144	Well rehabilitation

Annex C — Logical framework (summary)

Indicator	Baseline	Target	Means of verification
Number of people with access to safe water	377	1595	Water point registers
Number of emergency latrines constructed	648	2241	Completion certificates
Proportion of water samples with free residual chlorine (%)	30%	59%	Testing logs
Number of households receiving hygiene kits	588	1176	Distribution lists
Proportion of complaints responded to within 7 days (%)	9%	20%	Feedback database

Annex C.1 — Bank reconciliation summaries, second half of 2025

Month	Opening balance	Receipts	Payments	Closing balance	Reconciled by
July 2025	83,935	90,880	61,475	113,340	Finance Officer
August 2025	113,340	16,831	68,429	61,742	Accountant
September 2025	61,742	99,435	72,776	88,401	Finance Officer
October 2025	88,401	49,634	86,724	51,311	Accountant
November 2025	51,311	108,860	64,901	95,270	Finance Officer
December 2025	95,270	80,462	70,568	105,164	Accountant

Annex C.2 — General provisions (manual extract)

1. Environmental safeguards

1.1 Monitoring of funded projects follows the operational modalities approved by the Humanitarian Coordinator. Field monitoring, financial spot checks and remote call monitoring are planned according to partner risk level.

1.2 Staff costs charged to the programme are supported by timesheets approved by the line manager. Shared costs are apportioned on a documented basis that is applied consistently across donors. Changes to the apportionment basis are notified in writing.

2. Travel and allowances

2.1 Cash management follows the principle of minimum balances. Funds are held in a dedicated account and interest earned is reported. Transfers are requested on the basis of a cash forecast for the following quarter.

2.2 Accountability to affected people is a requirement for all funded projects. Partners describe the feedback mechanism used, the languages used for information sharing and how feedback leads to project adjustments.

3. Audit and review

3.1 The partner shall maintain a fixed asset register for equipment purchased with programme funds. Items above the capitalisation threshold are tagged and verified annually. Disposal or transfer of assets at the end of the programme requires written agreement.

3.2 Access constraints are monitored by the access working group. Projects in hard-to-reach areas describe contingency arrangements, including remote management and the use of local implementing staff.

4. Financial reporting

4.1 Staff costs charged to the programme are supported by timesheets approved by the line manager. Shared costs are apportioned on a documented basis that is applied consistently across donors. Changes to the apportionment basis are notified in writing.

4.2 Narrative reports are submitted through the grant management system at the frequency set by the partner risk level. Final narrative and financial reports are due within two months of project end.

5. Asset management

5.1 Gender and inclusion considerations have been reflected in the design of activities. Sex- and age-disaggregated data is collected for all output indicators. Consultations with community representatives include separate sessions for women and adolescent girls.

5.2 Meetings of the programme steering group take place quarterly. Minutes are circulated within ten working days and action points are tracked in the programme dashboard. Extraordinary meetings may be convened by either party.

6. Closure of agreements

6.1 All documents in this file are maintained in accordance with the records retention schedule applicable to the country office. Originals of signed instruments are kept in the registry; scanned copies are uploaded to the shared drive within five working days of signature. Superseded drafts are retained only where they record a decision.

6.2 Monitoring of funded projects follows the operational modalities approved by the Humanitarian Coordinator. Field monitoring, financial spot checks and remote call monitoring are planned according to partner risk level.

7. Complaints and feedback

7.1 Access constraints are monitored by the access working group. Projects in hard-to-reach areas describe contingency arrangements, including remote management and the use of local implementing staff.

7.2 This file has been compiled for internal review. Page references in the index refer to the consolidated PDF. Where a document appears in more than one version, the latest signed version is filed and earlier versions are listed in the correspondence log.

Annex C.4 — Coordination meeting minutes

Meeting held on 20 March 2026. Present: Joseph Lindqvaar, Marta Hilarov, Amina Belmonte-Ari, Farah Sithembele, Grace Mbuyamba, Tariq Balogandi.

Item 1. The finance officer presented the expenditure report for the quarter; the burn rate is in line with the plan.

Item 2. The meeting reviewed the risk register and agreed to raise the rating for currency risk.

Item 3. The communication plan for the next quarter was endorsed.

Item 4. Any other business: the date of the next meeting was set for the last week of the quarter.

Item 5. The programme team reported on field activities and noted delays in two locations caused by road conditions.

Item 6. The supply officer reported stock levels at the central and district stores; no stock-outs were reported.

Item 7. The M&E officer presented data quality findings from the last spot verification; corrective actions were agreed.

Risk	Rating	Mitigation
Heat damage to stored goods	Medium	Ventilated stores; temperature logs
Currency depreciation reduces purchasing power of local costs	Medium	Quarterly budget review; contingency line
Insecurity along main supply route	High	Security clearance; alternative routing
Stock-outs at district level due to late reporting	Medium	Monthly stock reporting reminders
Fuel shortages affecting field monitoring	Low	Fuel reserve; consolidated trips
Delays in customs clearance of imported goods	Medium	Early exemption requests; clearing agent
Price increases for locally sourced items	Medium	Market survey before each order
Late submission of quarterly reports	Low	Reporting calendar; reminders two weeks before due date
