FONDATION MBAM-ET-KIM POUR LA SANTE · LOGISTICS AND PROCUREMENT · YAOUNDE, CAMEROON

Direct contracting file — DC-2026-003

Repair and 12-month maintenance of 14 TB programme vehicles (single supplier)

Grant	CMR-T-FMKS (tuberculosis), synthetic reference
Principal Recipient	Fondation Mbam-et-Kim pour la Sante (FMKS)
Contract reference	DC-2026-003
Supplier	Nkolbo Motors SARL, Obala road workshop
Method used	Direct contracting (single source)
Justification cited	Urgency: sputum transport interrupted in 5 districts
Attachment 4 (cover list)	Global Fund non-objection to single-source request

INTERNAL MEMORANDUM

To	Executive Secretary, FMKS
From	Grace Varghese-Oku, Logistics Coordinator
Date	9 February 2026
Subject	Direct contract for urgent fleet repair and maintenance

Fourteen of the twenty-two vehicles used for sputum sample transport and supervision are off the road. Sample referral from five districts to the regional laboratories has been interrupted since mid-January, and turnaround times for GeneXpert results have doubled.

Given the urgency, the logistics unit approached Nkolbo Motors SARL, which serviced part of the fleet under a previous contract, and requests approval of a direct contract for repairs and 12 months of preventive maintenance. The attachments listed on the cover are referred to in this memorandum.

COI declarations of the three officers involved are pending at the date of this memorandum.

1. Situation and need

The TB programme relies on a fleet of 22 double-cabin vehicles and 40 motorcycles for sample transport, supervision and contact tracing. A fleet assessment conducted on 20 January 2026 found fourteen vehicles immobilised, mainly because of worn suspension components, clutch failures and overdue servicing.

Plate (synthetic)	Model year	Odometer (km)	Main defect	Days off road
CE-100-FM	2020	184,538	Clutch	36
CE-101-FM	2017	244,558	Electrical	52
CE-102-FM	2018	203,518	Overdue service	52
CE-103-FM	2017	272,996	Suspension	18

CE-106-FM	2017	227,721	Electrical	57
CE-107-FM	2017	176,527	Brakes	24
CE-108-FM	2018	258,770	Suspension	43
CE-109-FM	2018	208,374	Overdue service	48
CE-110-FM	2017	178,454	Gearbox	38
CE-111-FM	2018	215,455	Electrical	40
CE-112-FM	2019	291,478	Gearbox	33
CE-113-FM	2017	285,788	Overdue service	41

Pharmaceutical and health product quality assurance follows the applicable quality assurance policy. Certificates of analysis and batch release documents are retained with the receipt documentation for each consignment.

The grant is implemented under the Grant Regulations and the grant confirmation signed with the Global Fund. Terms defined in the grant confirmation have the same meaning in this file. In case of inconsistency, the grant confirmation prevails over internal guidance notes.

Co-financing commitments of the government are tracked in the co-financing matrix. The matrix is updated annually and shared with the Country Team as part of the annual funding decision process.

2. Procurement route

The PR procurement manual allows direct contracting in cases of demonstrable urgency, provided that the circumstances were not foreseeable and that the Global Fund has issued a non-objection where the value is above the threshold set in the grant confirmation.

No exemption from competitive procurement was approved for this contract; the direct award was processed on the basis of the urgency described in the memorandum alone.

No solicitation notice was issued, as only one workshop was approached.

At the contract value the direct contracting route falls outside the single-source ceiling of US$ 100,000 that applies without a prior Global Fund non-objection.

The justification memorandum dated 5 February 2026 records the reasons for choosing Nkolbo Motors SARL: urgency, its servicing history on nine of the fourteen vehicles, and the availability of parts in stock.

Staff costs charged to the programme are supported by timesheets approved by the line manager. Shared costs are apportioned on a documented basis that is applied consistently across donors. Changes to the apportionment basis are notified in writing.

Funds are disbursed in tranches linked to the approved cash forecast. The Principal Recipient reconciles advances to sub-implementers quarterly. Unspent balances at the end of the implementation period are handled as set out in the grant confirmation.

Human rights and gender considerations are integrated into programme design in line with the grant catalytic priorities. Community-led monitoring findings are discussed with the programme team each quarter.

3. Supplier assessment

A site visit on 3 February 2026 confirmed that the workshop has four service bays, diagnostic equipment for the vehicle model, and six certified mechanics, and is able to complete the repairs within 30 days.

Criterion	Observation	Assessment
Legal registration	Trade register RC/YAO/2014/B/2231	Satisfactory
Tax clearance	Certificate valid to 30 June 2026	Satisfactory
Workshop capacity	4 bays, lift, diagnostic tools	Satisfactory
Parts availability	Stock list reviewed	Satisfactory
Past performance	Previous contract 2023-2024	Satisfactory

4. Price and contract particulars

Code	Budget line	Unit	Qty	Unit cost	Total (XAF)
1.01	Suspension overhaul	vehicle	6	805,661	4,833,966
1.02	Clutch replacement	vehicle	4	582,167	2,328,668
1.03	Brake system	vehicle	5	333,193	1,665,965
1.04	Gearbox repair	vehicle	2	1,481,876	2,963,752
1.05	Electrical diagnostics and repair	vehicle	3	217,079	651,237
1.06	Preventive maintenance (12 months)	vehicle-service	88	199,512	17,557,056
2.01	Towing and recovery	trip	9	77,681	699,129
	Subtotal, lines shown				30,699,773

Summary of the main cost lines only. Support costs, contingency and lines below the reporting threshold are carried in the detailed costing and are not shown here.

The contract amount is XAF 186,450,000, equivalent to US$ 309,800 at the UN operational rate of exchange of February 2026.

The price was compared informally with the rates of two other workshops obtained by telephone. The logistics unit considers the rates reasonable. No written quotations were obtained.

5. Conflict of interest

The officers involved in the direct contracting decision are the Logistics Coordinator, the Fleet Supervisor and the Finance and Administration Manager.

Update of 20 February 2026: the three officers have now signed conflict-of-interest declarations, and none reported any interest in Nkolbo Motors SARL.

6. Integrity due diligence

Integrity due diligence on the supplier and its owner was requested from the PR legal counsel after the contract was signed on 10 February 2026, because the urgency procedure did not leave time before signature.

Subject	Nkolbo Motors SARL and its sole owner-manager
Type	Organisation (limited liability company)
Role	Supplier (works and services)
Performed by	External law firm instructed by PR legal counsel; not a Global Fund pre-approved provider
Reference	Legal memorandum LEG/2026/031

Persons screened with the company: the owner-manager, who is the sole shareholder, and the workshop manager.

The law firm screened the names against the UN consolidated list, the OFAC SDN list and the World Bank list of debarred firms.

The screening was carried out on 11 February 2026.

The screen was therefore performed one day after the contract had been signed, not before engagement.

Result: one potential match on the UN consolidated list for the name of the owner-manager.

The Director of Programmes was designated to handle the potential match.

No rationale for continuing with the contract despite the potential match is recorded in the file.

The Global Fund Country Team was informed of the potential match by email on 19 February 2026, reference FMKS/CT/2026/012.

7. Attachments

No.	Attachment	Status in this file copy
1	Fleet assessment report, 20 January 2026	Included (section 1 extract)
2	Justification memorandum, 5 February 2026	Included (Annex A)
3	Site visit report, 3 February 2026	Included (Annex B)
4	Global Fund non-objection to single-source request	Not included
5	Signed contract DC-2026-003	Included (Annex C)

Attachment 4, the Global Fund non-objection listed on the cover, is not included in this file copy and no other exemption document is on file.

The partner shall maintain a fixed asset register for equipment purchased with programme funds. Items above the capitalisation threshold are tagged and verified annually. Disposal or transfer of assets at the end of the programme requires written agreement.

Gender and inclusion considerations have been reflected in the design of activities. Sex- and age-disaggregated data is collected for all output indicators. Consultations with community representatives include separate sessions for women and adolescent girls.

Annex A — Justification memorandum (5 February 2026)

The Logistics Coordinator requests authorisation to contract Nkolbo Motors SARL directly. The fleet interruption has already delayed sample referral for more than three weeks. A competitive process would require at least six weeks. The workshop has serviced nine of the vehicles and holds parts in stock.

Programmatic results are reported through the progress update and disbursement request. Indicator values are drawn from the national health information system where possible. Data quality checks are performed before submission.

The Principal Recipient maintains a grant management manual approved by its board. The manual covers finance, procurement, sub-recipient management, monitoring and evaluation, and risk management. Revisions are shared with the Country Team for information.

The implementation timeline assumes timely customs clearance. Where duty exemption is available, the relevant certificates are requested at the time of order. Delays attributable to clearance are reported in the next progress report.

Personal data collected in the course of this engagement is processed only for the purposes stated in the agreement. Beneficiary-level data is not transferred to the file; aggregated figures are used for reporting. Any data-sharing arrangement with a third party requires a separate written protocol.

Annex B — Site visit report (3 February 2026)

The visit team comprised the Fleet Supervisor and a mechanic from the regional hospital. The team inspected the premises, the tools and the parts store, and interviewed the workshop manager.

Risk	Rating	Mitigation
Community tensions around targeting	Medium	Transparent criteria; community committees
Insecurity along main supply route	High	Security clearance; alternative routing
Delays in customs clearance of imported goods	Medium	Early exemption requests; clearing agent
Stock-outs at district level due to late reporting	Medium	Monthly stock reporting reminders
Data loss from field devices	Low	Encrypted devices; weekly synchronisation
Price increases for locally sourced items	Medium	Market survey before each order

Annex C — Signed contract DC-2026-003 (general conditions)

Contract signed on 10 February 2026 between the Fondation Mbam-et-Kim pour la Sante and Nkolbo Motors SARL for the repair and maintenance of fourteen vehicles.

Article 1 — Object. Notices under this Agreement shall be in writing and delivered by hand, courier or electronic mail to the addresses stated in the particulars. A notice is effective on receipt.

Article 2 — Focal points. The Recipient shall submit quarterly financial reports within thirty days of the end of each quarter and a final report within sixty days of completion.

Article 3 — Notices. Any dispute arising under this Agreement shall be settled amicably by negotiation. Failing settlement within sixty days, the dispute shall be referred to arbitration under the rules agreed by the Parties.

Article 4 — Force majeure. This Agreement may be terminated by either Party on thirty days written notice. On termination, unspent funds shall be returned and assets transferred as agreed in writing.

Article 5 — Termination. The Recipient shall keep accurate and systematic accounts and records in respect of the activities for at least seven years after the end of the Agreement.

Article 6 — Settlement of disputes. Nothing in this Agreement shall be construed as a waiver, express or implied, of any of the privileges and immunities of the United Nations or its subsidiary organs, where applicable.

Article 7 — Records. The Parties agree that the activities shall be carried out in accordance with the approved implementation plan and budget attached to this Agreement, which form an integral part of it.

Article 8 — Assignment. Each Party shall designate a focal point responsible for communication under this Agreement. Changes of focal point shall be notified in writing within ten working days.

Article 9 — Reporting. The Recipient shall not assign or transfer any of its rights or obligations under this Agreement without the prior written consent of the other Party.

Annex E — Fleet policy extract

1. Closure of agreements

1.1 Programme monitoring combines routine data review, field visits and spot checks. Monitoring visits are planned on a quarterly calendar and reports are filed within two weeks of each visit. Follow-up actions are assigned an owner and a due date.

1.2 All documents in this file are maintained in accordance with the records retention schedule applicable to the country office. Originals of signed instruments are kept in the registry; scanned copies are uploaded to the shared drive within five working days of signature. Superseded drafts are retained only where they record a decision.

2. Complaints and feedback

2.1 Meetings of the programme steering group take place quarterly. Minutes are circulated within ten working days and action points are tracked in the programme dashboard. Extraordinary meetings may be convened by either party.

2.2 Cash management follows the principle of minimum balances. Funds are held in a dedicated account and interest earned is reported. Transfers are requested on the basis of a cash forecast for the following quarter.

3. Security management

3.1 Environmental considerations are addressed in the implementation plan. Packaging waste from distributions is collected and disposed of through licensed operators where available. Vehicle use is logged and consolidated trips are encouraged to reduce fuel consumption.

3.2 The file follows the country office naming convention for electronic records: reference number, document type, version and date. Version numbers are incremented on every substantive change. Minor corrections of spelling or formatting do not create a new version.

4. Roles and responsibilities

4.1 Any amendment to the agreement shall be made in writing and signed by the authorised representatives of both parties. Budget reallocations within a category of up to ten percent may be agreed by exchange of letters; larger changes require a formal amendment.

4.2 The parties shall cooperate in any audit, review or evaluation of the programme. Auditors shall have access to books, records and personnel, subject to reasonable notice. Findings will be shared with the partner for comment before a report is finalised.

5. Programme monitoring

5.1 Security risk management follows the measures approved for the area of operations. Field movements are notified to the security focal point in advance. Activities in locations above the agreed security level are suspended until clearance is renewed.

5.2 Transport and storage arrangements take account of the rainy season. Pre-positioning of goods in district stores is completed before the end of the dry season where possible. Temperature logs are kept for items that require controlled storage.

6. Environmental safeguards

6.1 The parties shall cooperate in any audit, review or evaluation of the programme. Auditors shall have access to books, records and personnel, subject to reasonable notice. Findings will be shared with the partner for comment before a report is finalised.

6.2 Cash management follows the principle of minimum balances. Funds are held in a dedicated account and interest earned is reported. Transfers are requested on the basis of a cash forecast for the following quarter.

Annex F.2 — Monthly activity report, November 2025

Reporting month: November 2025. This report summarises activities, outputs and issues for the month and is submitted with the monthly data set.

Co-financing commitments of the government are tracked in the co-financing matrix. The matrix is updated annually and shared with the Country Team as part of the annual funding decision process.

Security risk management follows the measures approved for the area of operations. Field movements are notified to the security focal point in advance. Activities in locations above the agreed security level are suspended until clearance is renewed.

Price and quality reporting for health products is completed within the required time after each purchase. Reference prices are compared with the pooled procurement mechanism benchmarks where available.

Output	Planned	Achieved	Comment
Sessions held	175	146	Road access issues
People reached	112	91	Slight delay
Supervision visits	189	133	On track
Reports received on time	127	123	Above target
Stock reports submitted	129	102	Slight delay
