Synthetic rehearsal. Trace-li extraction fixture. Not an OCHA country-based pooled fund file.
Partner due diligence was completed and recorded as satisfactory before this allocation.
The allocation in this file is a reserve allocation for a sudden-onset response.
The humanitarian country team filed the allocation strategy with the reserve criteria attached.

The review committee recommended Partner C on 4 April 2026 after reading the project proposal.
A scorecard was not placed on the file.
The committee used a narrative note instead.
OneGMS shows the project as under review.
This fixture does not state the remaining OCHA CBPF pack controls.
